HI-SPEED USB 2.0 INTERNAL HUB USER MANUAL

MODEL 350310

MANHATTAN

MAN-350310-UM-0707-03

Thank you for purchasing the MANHATTAN® Hi-Speed USB 2.0 Internal Hub, Model 350310.

Easily converting an empty, unused 3.5” bay into a four-port Hi-Speed USB 2.0 hub, this device brings USB convenience to the front of a desktop computer to quickly add USB digital cameras, flash drives, external hard-drive enclosures and more. It’s an ideal desktop computer upgrade that provides handy USB connections without the nuisance of moving the PC case for rear-panel access or disconnecting cables and devices to free a port. USB 1.1 compatibility supports older devices and provides Hi-Speed USB 2.0 data transfer speeds up to 480 Mbps.

Installation is simple with Plug and Play and hot-swappable capabilities.

System Requirements

• Windows 98SE/Me/2000/XP/Vista/7 or Mac OS 8.6 or above

Package Contents

• Hi-Speed USB 2.0 Internal Hub
• USB, power supply cables and mounting screws
• User manual

MANHATTAN

NOTE: If, after connecting the internal hub to one or more peripheral devices, any of the ports fail to work normally, disconnect the device(s), as the failure may be momentary due to excessive current. Reconnect the device(s) to allow the hub to recover and operate normally.
